

A Class Act

Twenty-five-year-old theater grad student Rory Morgan walks into her Intro to Theater class expecting it to be a piece of cake. She isn't prepared for the diminutive little fireball of a professor who walks in. She is instantly captivated by Dr. Margaret Parks, her forty-year-old professor, and even works up the courage to flirt a little, which Dr. Parks quickly dismisses. After their first class, Rory finds herself thinking about the professor more and more and spends most of her class time watching the professor as she passionately does her job. Rory really wants to ask her out, but she doesn't know if the professor is even gay, to say nothing of the fact that she's her professor. What follows is a romance full of humor, passionate awakenings, and college politics. Can they overcome the hurdles that lie before them and still be a class act?
