

A Marriage of Convenience (Western Lovers)

This is a beautiful love story that has many layers to it. The title and cover of the book make it seem a bit simple but it is not. If you haven't read any of Georgia Bockoven paperbacks you might want to start with this one. It is a complex love story of sisters, babies, family and of course a man who doesn't know what hit him when he meets Chris and Kevin, the son he never knew he had. This moving portrayal of how love can be lost and regained through sacrifice and time will leave you searching on Netflix for the movie version! Read the book first!!
