

## An Exposition of the Epistle to the Hebrews

Written just prior to his death, James Haldane's Exposition of the Epistle to the Hebrews was one of his proudest achievements. Though he is more known for his landmark work on the Atonement, this verse-by-verse exposition/commentary stands on its own. Easy-to-understand, yet not dumbed-down at all, you will benefit from this study of the book of Hebrews. The opening book in The Restoration Movement Library, The Cobb Six has taken this book, and completely revitalized it, correcting any mistakes in spelling and punctuation, fixing incorrect verse references, and giving it a much more modern look and feel on the inside.
