

How Much Longer...: When Is It Enough?

When Jaeda met Nequan, she didn't think that he would change her world. She falls for him instantly, becoming best friends with his younger sister Tania. After spending a year with him, their relationship is tested by Nequan's mother moving him and Tania to a suburb outside of Philadelphia. Jaeda struggles to keep up with the changes in the relationship with Nequan. As they age, Nequan becomes more and more of a womanizer, leaving Jaeda to deal with girl after girl while she held onto him. Nequan, confused of his love for Jaeda and his love for other women, keeps pulling Jaeda to him, seducing her. After years and many attempts of breaking free of Nequan, she meets Nasir, her knight in shining armor leaving her to question if Nequan is truly her soul mate.
