

The Art of Breaking Up

Have you ever wondered what men think or feel after your relationship breaks up regardless of who left who? Do they instantaneously forget about you? Are they angry at you? Do they cherish the memories of things you used to do together? I wanted to see the other side of the coin and asked the men from my previous relationships why THEY think it didn't work out between us. Their answers provided a stunning clarity and opened up a whole new world that allowed me to eventually find true happiness. A Must-Read for women who ever wondered why their relationships ended.
