

The Tao of Dating: The Smart Womans Guide to Being Absolutely Irresistible

The man who will love you forever is out there right now. Do you know how to find him, meet him, attract him, and keep him in your life? This book shows you how. Can you have it all? I believe that smart, successful women can have both a great career and a rich, warm, fulfilling love life. See - smart women like yourself were having unfulfilling love lives on an epidemic scale when I was an advisor at Harvard. They either couldnt find the right guy, were with the wrong guy, had relationships that didnt last, or had given up on dating entirely. So I wrote this book to remedy the situation. This is not your grandmas dating guide. Partially because Im not your grandma, and partially because the 21st century poses unprecedented challenges to the modern woman. With a high-powered career, it may seem that there just isnt time for love. And nowadays, lots of guys are less educated and affluent than you. What to do? Ancient Wisdom + Modern Science = Lasting Love & Happiness For You This book combines ancient wisdom with modern science to give smart, successful women like yourself a heart-centered, science-based, practical guide to finding fulfillment in your love lives - and far beyond. I give it all to you in a series of small, easy steps that put the fun back in dating, plus the science and reasoning behind it so you can trust where it all comes from.
