

Self-Esteem at Work: How Confident People Make Powerful Companies (J-B Warren Bennis Series)

In his latest work, renowned psychologist, author, and consultant Nathaniel Branden--father of the self-esteem movement--shows you how high self-esteem is becoming a prime determinant of both organizational and personal success in the Information Age. Get the basics on: * Stirring creativity through self-esteem * Establishing a work culture that builds self-esteem * Boosting communication skills . . . and much more! Nathaniel Branden is a giant. His work integrating innovation and entrepreneurship with self-esteem is the cutting edge, and shows how the qualities of high self-esteem are the same attributes needed for success in today's environment. --Ken Blanchard, coauthor, *The One Minute Manager* I want to personally thank Nathaniel Branden for adding a million dollars to our sales this year, which I don't believe we would have had without his ideas triggering new thinking -- Thomas E. Trumble, president and CEO, *Leanin Tree* The 21-week, self-directed development program at the end of the book is essential for employees at every level of an organization.
