

The Thing about Elves (Santas Elves Book 2)

It's been two years since Angie's friend, Tessa, got married to Jedrick and introduced her to his brother, Ardan. From the moment she saw him she knew he was the man for her. There's only one problem: he's an elf who swears humans and elves don't mix. But Angie has other plans in mind. When Ardan asks her to his house after the delivery of Tessa and Jedrick's twins, she jumps at the chance. Even though he keeps telling her nothing will happen, they have been doing this dance for a very long time. And when she teases him by caressing his body, Ardan knows he's lost. But love and commitment are more than just hot sex. Ardan still doesn't trust human women and Angie is determined to prove that she is the woman the only woman for him. She loves medicine, the North Pole and him more than anything else in the world. When Ardan is summoned to help a hurt elf, he is unavailable and Angie goes in his stead to prove to him that she loves the community of elves as much as he does. But something goes terribly wrong and Ardan is left to care for a comatose and possibly dying Angie. Ardan realizing just how precious this woman is, vows to prove to her his love is fathomless. No matter what the future holds.
