

The SOCKKIDS Help Ben Franklin

Where do our missing socks go? Well tell you! Listeners find out in our childrens series, The SOCKKIDS. We follow the Socker family through many adventures, from encountering the slobbery mouth of the family dog, to meeting Santa as he comes down the chimney, to helping a fireman save a baby, to going to the school dance for the first time. Thanks to the time-travel opportunities afforded by the spin cycle of the washer, the Sockers learn about some of the most important humans in the world. Children ages two and up and their parents will be drawn to the journeys of the family and the universal and timeless lessons they teach: dont be afraid of new experiences, treat others as you would like to be treated, and, of course, beware of the spin cycle! In this story, we learn about Sudsy landing on the foot of inventor Ben Franklin. Sudsy, the bug-playing boy sock, discovers with Ben Franklin the wonders and dangers of electricity. The book includes safety rules and discussion questions put together by an experienced classroom teacher in helping parents and children respect the power of electricity. The SOCKKIDS help humans cope in a smelly world!
