

## Yoga of Abraham: Practice of Peace

Four thousand years ago, the prophet Abraham foretold of the mysteries of Creation and delivered a unique practice of liberation, which is being presented for the first time in the Yoga of Abraham:Practice of Peace. The alphabet of Creation, which he describes, bears a striking resemblance to the latest scientific revelations in the science of DNA. With amazing precision, he affirms the truth that all answers lie within and offers a simple practice to liberate the Self. The Yoga of Abraham: Practice of Peace is an ancient tradition of Yoga, which imparts mastery over time, space and being. Beginner and expert yogis will relish in the clear connections made between human physiology, bodily postures and meditation. The deeper secrets of spiritual growth and the infinite potential for liberation will naturally become active in those who dedicate themselves to this wondrous practice.
